

Interdisciplinary Group Project – Team Charter

TEAM 8

Albotherm

Albotherm Quality Intelligence System

MEMBERS

- Amir Zadeh
- Daud Sulaimon
- Leo Le
- Lin Myint
- Obinna Ogbuchi

TEAM ROLES AND RESPONSIBILITIES

For an equal distribution of workload, no individual will have a fixed assigned role; responsibilities will rotate periodically.

- **Project Manager:** Maintains the README.md, sets meeting agendas, and ensures the Team Charter is followed
- **Git Master:** Manages the .gitignore, helps teammates with merge conflicts, and ensures the folder structure stays clean.
- **Data Lead:** Maintains the Data Dictionary, ensures everyone has the same raw files in data/raw/, and checks for data quality.
- **Analysis Lead:** Oversees the Jupyter Notebooks in notebooks/ and ensures the final graphs in outputs// match the research goals.
- **Research Lead:** Investigates relevant methodologies, reviews how similar projects approach the problem, and shares best practices, tools, and techniques with the team.

PURPOSE

Successfully construct and deploy a predictive model within 4 months, achieving a high model accuracy, to precisely determine the optimal input conditions, thereby optimizing production operations and proactively controlling Albotherm's desired product quality.

CONDITIONS OF SATISFACTION

- Successful completion of assigned tasks
- Adherence to agreed deadlines
- Delivery of a fully functional product
- Maintenance of clear and consistent communication throughout the project

DECISION-MAKING

Issues will be raised with the entire team, and decisions will be made collaboratively to determine the most effective resolution

CONFLICT RESOLUTION

- Identify the root cause of the conflict and engage in open discussion to reach a constructive resolution
- In exceptional circumstances, appropriate corrective actions may be implemented in accordance with agreed team guidelines

GENERAL GROUND RULES

- Use agreed communication platforms (GitLab, Outlook, and WhatsApp) for all team-related discussions and updates
- Hold in-person meetings once per week to address complex issues and ensure alignment
- Be punctual and prepared for all meetings
- Respect deadlines and communicate any potential delays promptly
- Ensure equal participation and encourage constructive contributions from all team members
